W. M. M'ELHOY, Sergeant. Amid the suffering and sorrow of to-day there will go up a prayer to which everyone in Memphis will say "amen," that Butler Anderson's life may be spared; that he may live yet many years, an honor to the commumity and an example of the highest type of courage. His labors at Grenada the past four weeks are without a parallel in the history of epidemics. He not only nursed cases himself, but supervised all the philanthropic laborers, and for a time actually administered the affairs of the plague-stricken town. A hero among heroes, he carried hope and comfort to a people without either, and from the chaos and confusion incident to so fearful a visitation brought the order and system to which the few who survive the fever owe their lives. Like many another brave soldier he has at last been beaten by the enemy, and stricken with the fever he now lies in Hernando, where all that nursing and medical care can accomplish will be expended to restore him to health, that he may be spared to us for yet many years of usefulness, honored by those among whom he will stand with General W. J. Smith, one of the most conspicuous heroes of the epidemic of 1878. The prayers of the whole city are

WE are fast approaching the awful figures of 1873, notwithstanding there are scarcely numbered one hundred and nineteen and the deaths fifty-eight. Of the new cases eightyeight were white and thirty-one negroes, and of the deaths forty-seven were white and eleven negroes, showing that the black population is being fiercely attacked by the scourge, and is likely to suffer even a worse fate than that which has befallen the whites of the infected district. It thoroughly purl\_ fies the system by withdrawing all poisonous matters, thus preventing contagion. This Vapor Bath that has proved so efficacious in eradicating Yellow-Feve from the system, is obtained by an apparatus recently patented for the production of Turkish and Vapor aths, at the cost of the heat required-about five Baths, at the cost of the heat required—about five cents. It can be moved from room to room, and managed by a child, with no danger in the operation. No family can have the Yeliow Fever If its members use it, and it has never been known to fail in draining the poison from the system when used on a Yeliow-Fever patient. It has proved more effective than the ordinary Turkish Bathhouse in erad c-ting Rheumitism, Asthma. Catarrh, Skin Diseases. Dyspepsia, and all Nervous and Deblitating Maladies.

The entire apparatus for Turkish and Vapor Baths, including a case of medicinal agents for the production of six different Medicated Vapor Baths, \$10. We will send, carriage paid, on receipt of price, or C. O. D. by express, charges to be paid by purchaser. Pamphlet of testimonials and drawing of apparatus free. Are you suffering from ill-health in any of its man; and multifarious forms, consequent upon a lingering, nervous, chronic or functional disease? Do you feel nervous, debilitated, fretful, timid, and lack the power of will and action? Are you subject to loss of memory, have spells of fainting, fuliness of olood in the head, feel listless, moping, unfit for business or pleasure, and subject to fits of melancholy? Are your kidneys, stomach, or blood, in a disordered condition? Do you suffer from rheumatism, neuralgia or aches and pains? Have you been indiscreet in early years and find your-self harassed with a multitude of gloomy symptoms? Are you timid, nervous, and forgetful, and your mind continually dwelling on the subject? Have you lost confidence in yourself and energy for business pursuits? Are you subject to any of the following symptoms: Restless nights, broken sleep, nightmare, dreams, palpitation of the heart, bashfulness, confusion of ideas, aversion to society, dizziness in the head, dimness of sight, plimples and blotches on the face and back, and other despondent symptoms? Thousands of young men, the middle-aged, and even the old, suffer from nervous and physical debility. MESSES, J. H. ZEILIN & Co.—Gentlemen: We, the undersigned, Engineer: on the Georgia Central Railroad. In grateful oi.ligation for the benefits we received fram the use of Simmons Liver Regulator during the Yellow-Fever Epidemic in Savannah, Georgia, in the summer and fall of 1876, desire to make the following statement: That during the aforesaid epidemic we used the medicine known as Simmons Liver Regulator, ore pared by J. H. Zellin & Co., and though exposed to the worst miasmatic influences of the Yellow-Fever by going in and coming out of Savannah at different hours of the night, and also in spending entire nights in the city during the prevalence of this most fatal epidemic, with but the single exception of one of us, who was taken sick, but speedly recovone of us, who was taken sick, but speedly recovered, we continued in our usual good health, a circumstance we can account for in no other way but': the effect, under Providence, of the habitual and continued use of Simmons Liver Regulator while we were exceed to this Yellow-Fever malaria.

Respectfully yours,

We beg to inform the public of a few facts not generally kn wn. This company is manufacturing soaps largely from refined cotton-seed oil, which being purely vegetable, cannot impart any disease to the skin or blood. On the contrary, the person being thoroughly washed and anointed with this soap daily is one of the best preventives against contracting disease. While most of the soaps in use made from spoiled grease, and animais that died of disease—such as hog-cholera and every o'her contagion among animals—are immediately boiled into grease, turned into soap, and shipped South. To such an alarming extent has this prevailed, producing skin diseases and eruptions, sometimes incurable, that a board of chemists in New York last year petitioned the legislature of that State to pass a law prohibiting it, but it was never reached by the salons.

Our market is flooded with these cheap and injurious soaps from the West, and this company has been established to manufacture, at home, a pure, unadulterated article from cotton seed oil, the integrades consiling the best castile or olive-oil soaps.
